

Claude Monthly Check-In — June 2025

Sales AM | Kevin

1. Usage

- Drafting WhatsApp & SMS promo messages for campaigns
- Writing follow-up scripts for handlers to re-engage silent/dormant members
- Processing and organising member data (filtering by tier, bump status, etc.)

2. Projects

- Built reusable campaign templates for BP9 and King brand offers
- Created structured action plans for handlers to handle ghosting and tier-up pushes
- Automated CSV/Excel exports for follow-up campaign lists

3. Outcomes

- Faster message drafting — handlers get ready-to-use scripts instead of winging it
- More consistent outreach quality across the team
- Significant time saved on manual data filtering and file prep

4. Next Focus (July)

- Building a dashboard to track and visualise AM sales data
- Developing an automated KPI analysis tool for AM performance monitoring
