USAGE

- Development of a custom web application.
- Automation of recurring weekly promo SMS blasting task.

PROJECTS

VM Spiel Library Web App

An interactive repository for sales scripts and communication templates.

Weekly Promo SMS Blasting

An automated workflow designed to streamline promotional outreach.

OUTCOMES

The VM Spiel library web app was launched in June and helps VMs save time in drafting effective sales pitch on a day-to-day basis to increase their overall retention and account growth efficiency.

Automation of Weekly Promo SMS Blasting helps save time in executing a repetitive task on a weekly basis. Refinement had to be done along the way to make it more efficient and detect any errors in the process.

NEXT MONTH'S FOCUS

- Further refinement on Automation of Weekly Promo SMS Blasting.
- Identifying other areas to automate
